OBSERVE WHEN ORDERING.

How to Order.—Write plainly your name, town, county and state, giving street numbers and postoffice box when expedient. Send all money by postoffice or express money order, bank draft or check, and small sums by registered letter. Postage stamps received in sums up to one dollar.

Terms.—Orders must invariably be accompanied with the cash, or satisfactory reference.

Orders to be sent by Express C. O. D. should be accompanied by a remittance of half the amount of the order.

Shipping.—All goods forwarded at purchasers' expense. Please state the way you wish goods sent whether by express, freight or mail. I advise the shipment of all plants by express, as it insures prompt delivery. In the case of heavy balled plants, as orange trees, etc., shipment can be made by freight, and by my careful system of packing they travel long distances in good condition. No charge for packing or delivery to Express or Freight Offices in Los Angeles.

Inspection.—A Horticultural Inspector's Certificate goes with every shipment sent out, thus insuring stock free from insect pest and disease.

Non-Warranty.—I exercise great care in the packing and labeling of trees and plants, but give no guarantee as to their growth, that depends on the treatment they receive from purchasers. Thus it is obvious that I can not be held responsible in this regard. All orders subject to these conditions.
